**APICS Fun**

“Now you’ll be able to see exactly what Marketing sees.”
Greetings,

I would like to start this letter off with a “Thank You” to all of the people that are active in our local APICS Chapter. Whether it is attending PDMs, attending review classes, volunteering as a board member or attending our road clean up, we all help the Chapter “Stay Alive and Well”.

As we start a New Year I would like to challenge our members and non-members to get more involved this year. For our non-members this is the year you should join our Chapter. For our non-certified members this is the year you should get your APICS certification. For our certified members let this be the year that you become a board member or recruit others to start getting involved in our Chapters activities.

It is active involvement that will help our Chapter grow. As we grow we can offer more programs, expanded upon our PDMs, tours and review classes. We would like to grow our educational offering by providing Certified Supply Chain Professional (CSCP) review classes but we can’t do this until we grow as a Chapter.

Please, help our Chapter grow this year - let’s all get involved, be involved and stay involved.

Have a great 2016 and we’ll see you this year at APICS Shoreline Chapter events.

Joel Jelenc, CPIM
VP Marketing & Newsletter
APICS Shoreline Chapter
While not formally trained within the Supply Chain discipline, Ryan has a strong passion for understanding and driving the business and has progressed through roles of increased responsibility during his tenure with Kohler Co. Ryan started his career with Kohler Company in 2005 as a Human Resource Professional. During his tenure in Logistics working as Sr. Project Analyst and Project Manager, he had developed his Supply Chain experience through responsibilities including managing all components of Supply Chain expenses (roughly 9% of net sales) including Financial and Capital Planning processes, managing backlog/shipping commitments and execution, and managing projects to reduce cost (several initiatives delivered annual savings greater than $1M).

Through an internal leadership program for emerging leaders, he was challenged with a Process Improvement Manager, Demand Management role in late 2011 with an initial focus being on retail Collaborative Planning, Forecasting, and Replenishment (CPFR). During his tenure in this role, the forecasting team effectively drove process improvements resulting in a 30%+ reduction in forecast error which contributed to improved service levels (as measured from Kohler to our customers), improved in-stock % for our customers, a nearly 80% reduction in retail cuts (“cancellations” when they are out of stock), and improved inventory health (reduction in shortage/excess). His current position is Sales & Operations Planning Manager.

He attended the University of Wisconsin-Green Bay where he earned Bachelor’s Degree in Business Administration, Minor in Accounting along with specialized training in Kohler NXT Leadership Program (2011-2012) and Executive seminar in Logistics (2012) at Michigan State University.

**Topic: Sales & Operations Planning**

The presentation will focus on the monthly S&OP processes including Demand, Supply, Inventory, and Service. Kohler runs SAP for both Demand & Supply Planning with additional reliance on SAS, Data Warehouse, Business Warehouse, and Microsoft Excel. While technology is an important component of any S&OP process, Kohler is not typically an early adopter of new technology. A key focus of Ryan’s roles over the past several years has been on how to appropriately leverage the technology they have and identify areas where additional tools would drive improved business performance.

- **Demand:** Demand Planning Cadence, Forecasting Metrics, CPFR Processes (Collaborative Planning, Forecasting, & Replenishment), and the importance of using Point of Sale data
- **Supply:** Supply Planning Cadence, Tools to Manage the Process (IOP Document), and scenario planning
- **Inventory:** Inventory Turns, Capacity, and proper use of Capital
- **Service:** Metrics to measure service, analysis of misses, and lead-time management

**Interested in attending this event?**

BOD Meeting Schedule

BOD meetings are planned for the first Wednesday of the month except as noted. Meetings are held at Lakeshore Technical College at 6:00 PM. All members are welcome to attend any board meeting. Please let any current board member know if you would like to attend as we normally have a light meal preceding the meeting and it will help us to ensure we have enough for all.

Editor's Note

If you have an interest in any specific news item, have a question or wish to see something added to the newsletter please e-mail your request to newsletter@shorelineapics.org.
